RAGE RELIEF LLC

CAPABILITY STATEMENT

Team readiness technology for first responders and the people who support them

www.cosmaei.com

CORE CAPABILITIES

CHR (Crew Health Readiness) — a team readiness platform for crews and units. Members check in through Open Nexus, our personal app. Leaders see one weekly readiness range per team, never names or written words.

- Group-only results: nothing is shown for teams under 8 people
- Team results stored with no user ID; every leader view is logged
- Written entries deleted after 90 days; members can erase their data anytime
- Designed for a neutral data holder, such as a union or chaplain corps, so the employer never holds raw data

Open Nexus — live at app.cosmaei.com, built on our COSMIC AEI engine. A personal reflection tool for working through stressful decisions and hard conversations. Each entry gets two reasoning passes (tone and logic), and the Observatory panel shows how the message was read and why.

DIFFERENTIATORS

- **Privacy built into the structure**, not just promised by policy
- **Visible reasoning**: users and leaders can see how a read was made
- **Built for high-pressure professions** where people tend to understate what they carry
- **U.S. provisional patent application** filed August 2026
- Member of Anthropic's Claude for Startups program (2026)

TARGET CUSTOMERS

Fire and rescue • EMS • 911 and emergency communications centers • law enforcement • county risk management and HR • military units

CURRENT STATUS & PAST PERFORMANCE

- Working prototype (TRL 4); now accepting pilot partners
- Submitted to the DoD CDAO Tradewinds Solutions Marketplace (October 2026)
- Virginia APEX Accelerator client; Launch Loudoun Technical Services participant
- Early-stage company: no federal contracts to date
